# BEARS EARS

**Bears Ears National Monument is the first monument created at the request of a coalition of Native American Tribes. It protects lands and sites sacred to many people. It has exceptional archaeological, ecological, and paleontological benefit. Learn more at our website and visit us:**

**Bears Ears Education Center  
Bluff, UT  
435-672-2402**

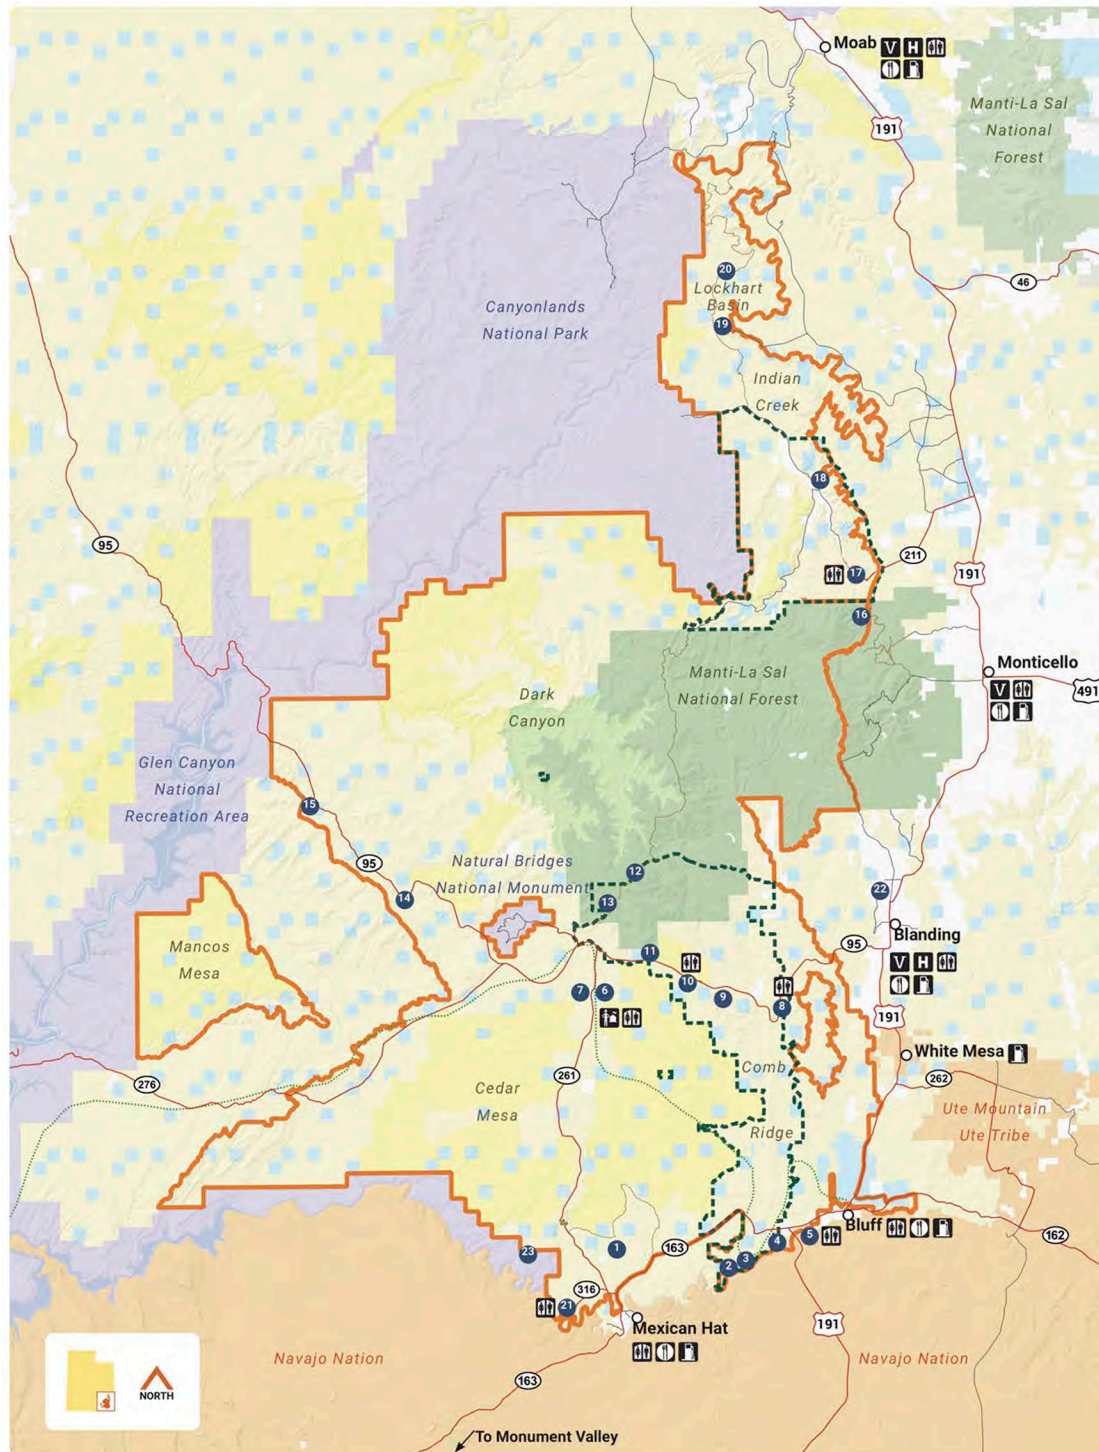

**Weather and natural events can change quickly and alter road/trail conditions, increase difficulty levels, and make routes impassable. Designated roads, trails, or areas may not be passable, actively maintained, or safe for travel. Be prepared for changing conditions at all times and seasons. Most dirt roads require high-clearance vehicles. Trails/roads may be unmarked. Keep adequate food, water, first aid at hand at all times. Mobile phone coverage is unavailable in much of the area. Do not enter abandoned mines. Always inform a reliable person of travel plans and return times.**

No warranty, expressed or implied, is made as to information accuracy or completeness. The Bears Ears Education Center and its affiliates are not liable for any incidents arising from the use of the information presented here. Each user is solely responsible for their own safety.*

## Things to See and Do

### Exploring Bears Ears National Monument

- Valley Of The Gods  
*Scenic Drive*
- San Juan Hill  
*Historic Hike*
- River House  
*Archaeological Site*
- Big Kachina Panel  
*Petroglyphs*
- Sand Island Petroglyph Panel  
*Petroglyphs*
- Cedar Mesa Rock Art Exhibit  
*At Kane Gulch Ranger Station*
- Kane Gulch To Junction Ruin  
*Advanced Hiking Trail*
- Butler Wash Ruins Overlook & Trail  
*Hiking And View*
- Cave Towers  
*Archaeological Site*
- Mule Canyon Kiva  
*Roadside Archaeological Site*
- Salvation Knoll  
*Historic Site*
- Arch Canyon Overlook  
*Scenic View*
- Bears Ears Buttes  
*Scenic View*
- Fry Canyon  
*Canyoneering*
- Jacob's Chair  
*OHV Trail*
- Harts Draw Road  
*Scenic Drive*
- Newspaper Rock Panel  
*Petroglyphs*
- Indian Creek  
*Rock Climbing*
- Needles Overlook  
*Scenic Drive*
- Lockhart Basin Road  
*4WD Road, Mountain Biking*
- Goosenecks State Park  
*Scenic View*
- Edge Of The Cedars State Park  
*Archaeology Displays*
- Muley Point  
*Scenic View*

## Visit with Respect

**Enjoy sites from a distance**  
Many Indigenous peoples consider this landscape sacred, and numerous Tribal Elders ask visitors to view sites from a distance. This small act honors Tribal beliefs and protects cultural resources from the destructive effects of visitation, like erosion.

**Leave all artifacts**  
Keep discovery alive so the next person can share the experience. It's illegal to move or take any artifact, including historic trash, from public lands.

**Don't touch rock imagery or make your own**  
Vandalism of petroglyphs and pictographs erases stories of ancient people and destroys the experience for future visitors.

**Steer clear of walls**  
Historic and prehistoric structures can be easily damaged. Please refrain from touching, leaning, standing or climbing on any structures.

**Stay on Designated roads**  
Use existing roads when traveling to cultural sites. Driving off-road can create new routes on top of fragile archaeology and ecosystems.

**Avoid building cairns**  
Keep the landscape natural by leaving only footprints. Cairns can increase impacts on sensitive sites and are sometimes mistakenly constructed with artifacts.

**Don't disturb fossils or bones**  
Leave fossils, dinosaur bones, tracks and other paleontological remains where you find them so future visitors and scientists can experience them.

**Use rubber tips**  
A rubber tip prevents your hiking pole from scratching and scarring subtle rock art on the ground surface.

**Don't bust the crust**  
Stay on existing trails and routes to protect the living cryptobiotic soil. Once stepped on, this fragile crust takes years to regrow.

**Leave grinding to the past**  
Re-grinding in slicks and grooves removes the ancient patina left by those who created them. Please refrain from touching or using grinding slicks.

**Pack out your poop**  
Human and pet waste threaten fragile desert ecosystems and drinking water sources for hikers and wildlife, and poop near cultural sites is very disrespectful. When hiking and camping, please use portable waste bags or a camp toilet, and always pack out your toilet paper.

**Dogs and archaeology don't mix**  
To prevent digging and erosion, pets are not allowed in archaeological sites. Please make sure pets are leashed and kept away from the site.

**Enjoy archaeology without ropes**  
The use of climbing gear like ropes to access archaeological sites is illegal. This protects archaeology from damage caused by falling rocks and looting.

**Pay your fees**  
It may not seem like much, but your small fee helps support important monitoring, enforcement and amenities like toilets.

**Don't build fire rings**  
Remember to check when and where fires are allowed. Where fires are allowed, use existing fire rings or bring your own fire pan.

**Camp and eat away from archaeology**  
Camping, fires and food can damage the archaeological remains and also spoil the view for other visitors.

**Historic artifacts are not trash**  
Leave historic artifacts like rusted cans right where they are. They help interpret the past and show how people lived.

**GPS reveals too much**  
GPS points often lead uneducated visitors to sensitive sites. When posting online about your trip, remove all references to location.
